

I used my grant funds to purchase a huge black bag that carries up to 20lbs, for my mannequin's heads, nail polishes, and mannequin's hands, when we travel to various schools and Nursing homes. I also used it for community events, including The Special Prom, church activities and weekends in our class for special events. I used it on the football field for Relay for Life. We displayed the mannequin heads, hands and nail polishes that we use in the salon at one of our community events.

We used our mannequin huge bag at the career fair at JET and plan to use it at some other area schools before the year is out. It will definitely come in handy when we have our annual Hair and Fashion Show, on March 23, 2019. We plan to use it for more events this spring. Thank you for your assistance with building this great career opportunity for students in cosmetology.
