

Foundation for Public Schools in Edgefield County Teacher's Vision Grant-2018/2019 Follow up

Project Title: Can You Hear Me Now?

Grade Level and Subject: First Grade- Science, ELA, Math, Art

Projected Number of Students Affected: 80

Thank you so much for funding our extension of our listening center stations in our first grade classrooms. The students enjoyed listening to a story read to them and the modeling of inflection and pausing for them to use in their own reading. The at-risk students enjoyed having books above their level and not having the struggle time that they would normally face when reading higher level books. The students were able to respond in writing about story structure, details, problem, and solutions. Nonfiction and fiction books were purchased and bagged and labeled for sharing amongst the grade level.
