

I was awarded a 2019-2020 Vision Grant. The grant was used to purchase a Reader's Theater Kit for my second grade classroom. The kit included Reader's Theater scripts and microphones with recording/playback capabilities. Reader's Theater proved to be extremely effective. The scripts were leveled, which allowed all students in the classroom to participate and benefit from the program. All 13 students showed an increase in accuracy, prosody and rate over the course of 16 weeks. This form of instruction has proven to be engaging and beneficial for my second grade students. Thank you.
