Dear Edgefield School Foundation Members,

Thank you so much for awarding me the funds for my grant, “An Apple I-Pad A Day, Keeps Disruptions Away!”. My goal was to use the I-Pad to decrease disruptive behavior by keeping students engaged in learning. Also it increased student achievement. It has truly been a life-saver this year. I have used it in all subjects. It is a wonderful tool for students when I need them to work independently. They LOVE it! It is especially helpful for my younger students who hate practicing their writing. They actually want to practice forming their letters on the I-Pad. Thank you again for all of your support, it means so much to me and my fellow educators.

Sincerely,

Jenny M. Yonce
