

I was so excited when I learned my "Literacy Rich" grant had been funded. These funds were used to help provide a literacy rich environment for my kindergarten students. The materials that I purchased have allowed the children to actively engage in meaningful literacy activities in small group settings. With the help of these materials, I have been able to deliver differentiated instruction to meet the individual needs of all my students. The children have gained a new excitement for learning to read and write thanks to these materials. Thank you for working to allow teachers to fund programs that help our children reach their fullest potential.

Sincerely,  
Teressa Gillespie
