

Dear Edgefield County Foundation Members,

Thank you so much for the grant money that I received last year. By being rewarded with the money, I was able to purchase the next 3 kits (and extra tiles) of the Susan Barton Reading Program. I have seen huge improvement with my students that have Dyslexia. After finishing up their progress monitoring testing for the last 9 weeks, each of my students have improved at least .5 to 1 year in reading this year. I had one student gain 2 years!! My students really enjoy the lessons also! Each lesson uses colored tiles in which the students have to break down the sounds, then syllables, in different words. It helps them really hear and figure out the words. Thanks again so much for your kindness, hard work, and dedication to the learning of our Edgefield County students!!

Sincerely,

Jenny M. Yonce
