Dear Foundation for Public Schools in Edgefield County,

Thank you so very much for affording me the opportunity to further expand the desires my students have to think, explore, and create. I was able to purchase enough stem bins and pieces for each student to rotate and use throughout the year. My students are continuing to use these stem bins in all content areas. We have explored making habitats out of certain materials. We have brought our reading to life by creating a setting for books. Students even figured out ways to make models of fractions. Stem bins allow my students to think outside of the box. I have one student who is very tactile and needs to see and feel his learning. The stem bins help him a great deal, especially with math.

I am so proud to be a part of Edgefield County and to be a representative of the Teacher Vision Grant. My students are blessed to be part of a community of leaders that believe in them and want the very best for their future.

Sincerely,
Jennifer Brucker
3rd Grade
Merriwether Elementary
