

Good afternoon!

I just wanted to formally thank you all again for the wonderful additions to my flexible seating this school year. It has made a huge difference in the children's ownership of their learning and my classroom environment. The student's love coming to school and getting the choice of seating. Students got to try all of the new seats at the beginning of the year and they now all have their favorites. We rotate seating often and the students are good about choosing the best seat for their learning style. I took some pictures with my students on some of the seating. Thanks again for this wonderful grant opportunity each year!
