

Teacher Vision Grant Reflection

2023 - 2024

By: Stephanie Fletcher

My grant “Environment is Everything” was granted for this year and the materials were purchased and implemented this school year. I was able to enhance my classroom community and allow the students to be comfortable in all areas of the classroom. The students absolutely love the reading center with the built in bench and collaborating on the classroom carpet in groups to complete work. The rocking chair has made shared reading and partner reading even more fun! I look forward to continuing the use of these supplies for years to come!
