

Thank you so much for awarding my students this wonderful handwriting curriculum! They have greatly improved their handwriting. Several of my students have been dismissed from Occupational Therapy this year. The Rhythm of Writing Curriculum has helped increase their manuscript and cursive writing. It has also helped improve their spelling. 92% of my students met their writing goals in their IEP's for this year. Thanks again for all of the hard work that your committee does for our students!

PS: I have attached pictures of my precious Lela working in her book. :)
