

THANK
YOU

Thank you so much Foundation for Public Schools in Edgefield County for Engagement Activities. This grant provided me with funds to purchase learning games to use to reinforce our language arts curriculum. The kids loved playing the games to practice these skills in an engaging way! I know I will be able to use these games even more in the coming years! I also was able to purchase some more materials for my STEM bins that students can use when their regular work is finished.

Again, thank you for your generous donation and your continued support of education!

Sincerely,
Alyson Abbott
3rd Grade Teacher
Merriwether Elementary
