

Adventure Awaits: Graphic Novel Explorers - Grant Summary

At the beginning of this school year, I noticed that my students had developed a deep love for reading and were intrigued by the few graphic novels I had in my classroom library. I chose to write the grant proposal to acquire more graphic novels for our classroom library. The award of this grant allowed for the purchase of multiple copies of each graphic novel. We were able to get graphic novels including the 'I Survived' series, 'Sports Illustrated', 'Baby-Sitters Little Sister' series, 'Magic Treehouse' series, and more! The students are all currently reading the purchased novels, some individually and others in groups. I have several students who have even started a "Graphic Novel Book Club" at recess. This grant has allowed the students a large variety of books to choose from and read with one another. The students even take these books home and read with their families. We are so grateful for this grant. Thank you to all who made this possible for my students, our class, and their families! This has been an amazing experience and I look forward to continuing to foster their love of reading next year!
